

PLACEHOLDER RESUME

Mukerem Shifa - AI Engineer & Full-Stack Developer

This file stands in for the real resume PDF. It exists so that the `site.resume` field has a downloadable target and so the "Download resume" CTA can be reviewed in place. Replace this file and bump `resume.updated` in `content/site.json`; nothing outside `content/` and `public/` changes.

PLACEHOLDER

Tracked in `docs/STUB-INVENTORY.md`. Phase 5 supplies the real document.
